Feedback on coursework provided by Professor Paul Dowling

Critical Review of Kunkwenzu & Reddy

This is an excellent review, drawing out a number of important points regarding the reviewed work. The comment that qualitative research does not necessarily seek to generalize (p. 4) is a misrepresentation: qualitative research does not generally seek to generalize to a population, but rather generalizes through the production of theory and/or the accumulation of narratives.

Research Proposal

The proposal evidences a sophisticated level of understanding of a range of methodological issues and presents a viable and well thought-out study.

General

Both pieces of work are well written and presented.
